

EYL

Features:

EYL Cylindrical surface mounted downlight, modern designed and clean lines, simple look. High-quality die cast aluminum body, a durable, lightweight, and precise product, and anti-glare reflector with excellent light dispersion. High thermal conductivity double-sided aluminum substrate, so it helps keep the light fixture cool. The reflector enhances the light's intensity by reflecting more light onto the target area. This IP65 rating makes the downlight suitable for both indoor and outdoor installations, providing durability in challenging conditions.
