

JAVA

Features:

JAVA is a flood light, featured a high-pressure die-cast aluminum body, treated with a fluorine carbon spray coating for enhanced durability and corrosion resistance.

The lamp is equipped with a high-strength lampshade designed to reduce the impact of friction and external forces.

Available in Metallic Gray (RAL9023) with a high-gloss liquid coating and high-temperature grilling, the fixture also offers a 50µm liquid coating to enhance heat dissipation and lifespan, or a 120µm RAL7011 metallic grey powder coating for robust UV protection.

With THD less than 10% and a power factor greater than 0.9, it ensures high electrical efficiency and superior performance. The toughened glass surface offers high hardness and impact resistance, and the series provides various CCT options, C5 Marine Grade Coating, Honeycomb, and Anti-glare shield options, making it a versatile solution for diverse project specifications. Its also comes with adjustable bracket Base, Round Base and Stand Base.

Powered by an original high-performance American LED light source, the flood light delivers high luminous output with excellent consistency in light color.

This flood light is a reliable and efficient solution for architectural lighting, landscape illumination, and other demanding outdoor applications.

Technical Specifications:

Input Voltage: AC90V-265V, 50-60Hz

Wattage: 60 - 120W

Housing : Die cast aluminum

High Lumen: 90lm/w

Power Factor : >0.9

3 Step Mac Adam

Light source : CREE

Operating Temperature: -25°C to 50°C

Warranty: 5 Years

Life Time: 50,000hrs at 25°C (L80/B10)

Fields of Application:

Facad

Airport

Stadium

Parking Lot

Sport Venue

Tower Crane

Landscape etc

Installation Method:

Surface Mounted

Wattage(W)	:	60	80	100	120
