LUKE

Description:

LUKE series of high-power LED wall washers combines sophisticated design with advanced thermal management, thereby ensuring fixture stability and prolonged operational lifespan. The fixture's housing is precision-molded from premium 6063 aluminum alloy and finished with an anodized coating, providing exceptional durability and corrosion resistance. Available in Metallic Gray (RAL9023) with a high-gloss liquid coating and high-temperature grilling, the fixture also offers a 50μm liquid coating to enhance heat dissipation and lifespan, or a 120μm RAL7011 metallic grey powder coating for robust UV protection. With THD less than 10% and a power factor greater than 0.9, it ensures high electrical efficiency and superior performance. The toughened glass surface offers high hardness and impact resistance, and the series provides various CCT options, C5 Marine Grade Coating, Honeycomb, and Anti-glare shield options, making it a versatile solution for diverse project specifications. Customizable lengths include 250mm, 500mm, 750mm, and 1.5m. These fixtures are ideally suited for accentuating architectural elements, illuminating pathways, and enhancing the ambiance of outdoor environments.
